Yeung Sum Yu, Livia

Amsterdam/ London | linkedin.com/in/livia-yeung | livia.yeung@gmail.com | Portfolio

Product manager with experience across growth, developer platforms, and consumer products, delivering measurable impact through experimentation, AI tools, and cross-functional collaboration

EDUCATION

University of Oxford **Oxford, U.K.**
MSc Social Science of the Internet, Merit *2022 - 2023*

- Ranked **top 15%** of class; **Distinction** (>70%) for all Statistics and Research Methods modules
- Awarded **Merit (69%) for final thesis** on stigma faced by TikTok creators through sentiment analysis on Twitter & Reddit data using Python and qualitative interviewing

University College London (UCL) **London, U.K.**
BSc Psychology, First Class Honours (Dean's List) *2019-2022*

- Ranked **1/108** in Year 2; graduated **top 5%** of class; awarded **Grace Rawlings Prize** for academic merit

WORK EXPERIENCE

Miro *(AI innovation workspace acquired by Bending Spoons at $1.3B)* **Amsterdam, NL**
Product Manager, Developer Ecosystem & Model Context Protocol (MCP) *Aug 2026 - Now*
Associate Product Manager, Growth *Aug 2025- Aug 2026*

- Owned the roadmap for Miro's growth touchpoints and ran 15 experiments across acquisition, onboarding, monetization and retention with a team of 10 engineers, totalling **$1.3M ARR realized impact**
- **Launched Miro's first AI integrations hub** after finding users with integrations retain 4x higher, bridging Growth and Integration teams on a successful experiment that **boosted acquisition of first-time users by 30%**. Used Claude Code interactive prototypes for alignment and direct hand-off to Engineering
- **Diagnosed funnel drop-offs using SQL and Claude** and launched downgrade and 1-month-free offers in the cancellation flow, reducing cancellation rate by 8% and retaining **$1M at-risk ARR**
- **Automated a manual Support-enabled process** with a self-serve trial for Enterprise customers, influencing **$800KARR from Disney, Cloudflare, and 80 Enterprises.** Built a Snowflake dashboard to monitor impact
- **Drove $310K ARR** and increased free-to-paid conversion by 3% by adding plan recommendation tags to 200+ paywalls, reducing cognitive load during buying journey
- **Lifted new Business Plan users by 7% in 2 weeks** by enabling users to invite new members in one-click with a team invite link when sharing boards to drive virality
- Launched a customized activation email with pre-filled AI prompts with Braze after identifying a drop-off in first usage after authentication from funnel analysis, driving **+23% MCP usage** in a winning experiment
- **Cut support tickets by 80% in 3 weeks** by partnering with Customer Support on billing issues driving 50K annual refunds, improving cost transparency with multiple experiments while balancing revenue trade-offs

Captur *($6M start-up in real-time AI image analysis for micromobility and delivery)* **London, U.K.**
Associate Product Manager *2024 – 2025*

- **Increased Lime's parking compliance by 20%** in a successful pilot by overseeing model development and implementing UX changes to reduce user friction based on A/B test results, cohort analysis and user reviews, enabling an **expansion to 70+ new global markets**
- **Redesigned model development cycle** by identifying data management inefficiencies, partnering with ML Engineering and Data teams to automate manual processes, mitigating data risks and **saving ~10 hours/week**

Spotify **London, U.K.**
Product Management Intern *2023*

- **Activated 12M new MAUs to stream Spotify on TV in 3 months** by launching a targeted in-app messaging campaign, analyzing product funnel data and user interviews to define the value proposition, using Figma for wireframing, and measuring success with A/B testing

SKILLS & LANGUAGES

Skills: Prototyping using Claude Code, Replit, Figma; Data analytics using Cursor, SQL, Looker, Snowflake, Braze
Languages: English (fluent), Mandarin (fluent), Cantonese (native)
