Yeung Sum Yu, Livia

Amsterdam/ London | linkedin.com/in/livia-yeung | livia.yeung@gmail.com | Portfolio

Product manager with experience across growth, developer platforms, and consumer products, delivering measurable impact through experimentation, AI tools, and cross-functional collaboration

EDUCATION

University of Oxford **Oxford, U.K.**
MSc Social Science of the Internet, Merit *2022 - 2023*

- Ranked **top 15%** of class; **Distinction** (>70%) for all Statistics and Research Methods modules
- Awarded **Merit (69%) for final thesis** on stigma faced by TikTok creators through sentiment analysis on Twitter & Reddit data using Python and qualitative interviewing

University College London (UCL) **London, U.K.**
BSc Psychology, First Class Honours (Dean's List) *2019-2022*

- Ranked **1/108** in Year 2; graduated **top 5%** of class; awarded **Grace Rawlings Prize** for academic merit

WORK EXPERIENCE

Miro *(AI innovation workspace acquired by Bending Spoons at $1.3B)* **Amsterdam, NL**
Associate Product Manager, Growth *Aug 2025 - July 2026*

- Owned the roadmap for Miro's growth touchpoints and ran 15 experiments across acquisition, onboarding, monetization and retention from discovery to launch, **successfully shipping 9 to production**
- Retained **$1M at-risk ARR** by offering plan downgrade and winback offers in the cancellation flow, using Cursor and Looker MCP to analyze funnel metrics and Claude Design prototypes for design discussion
- **Lifted new Business Plan users by 7% in 2 weeks** by enabling users to invite new members in one-click with a team invite link when sharing boards to drive virality
- Generated **$310K ARR** and **lifted free-to-paid conversion by 3%** by adding plan recommendation tags to paywalls to reduce cognitive load on plan selection
- **Doubled purchase rate of Miro Prototypes** by designing an in-product request flow that routed user demand to sales, helped closing Disney, Pfizer, and 78 Enterprise accounts via product-led growth. Built a Snowflake dashboard using SQL and Gemini to monitor post-launch impact
- **Reduced support tickets by 80%** by partnering with Support to prioritize top billing complaints and removing dark patterns in license management and invite flows with a neutral business impact

Product Manager, Developer Ecosystem & Model Context Protocol (MCP) *Aug 2026 - Now*

- Interviewed 50+ users to identify high-intent moments for using Miro with AI tools, and built in-product in-product entry points that **boosted acquisition of first-time user by 30%** in 2 weeks
- Conducted a funnel analysis using Cursor that identified a drop-off in tool calls after authentication; built a customized activation email with pre-filled AI prompts with Lifecycle Marketing, driving **+23% increase in tool calls** in 3 days

Captur *($6M start-up in real-time AI image analysis for micromobility and delivery)* **London, U.K.**
Associate Product Manager *2024 – 2025*

- **Increased Lime's parking compliance by 20%** in a successful pilot by overseeing continuous model development and implementing UX changes to reduce user friction based on A/B test results, cohort analysis and user reviews, enabling an **expansion to 70+ new global markets**
- Led the redesign of model development cycle by identifying data management inefficiencies and model visibility gaps, partnered with ML Engineering and Data teams to introduce automations and a model performance dashboard, **mitigating data segregation risks** and **saving ~10 hours/week**

Spotify **London, U.K.**
Product Management Intern *2023*

- **Activated 12M new MAUs to stream Spotify on TV in 3 months** by launching a targeted in-app messaging campaign, analyzing product funnel data and user interviews to define the value proposition, using Figma for wireframing, and measuring success with A/B testing

SKILLS & LANGUAGES

Skills: Prototyping using Claude Code, Replit, Figma; Data analytics using Cursor, SQL, Looker, Snowflake
Languages: English (fluent), Mandarin (fluent), Cantonese (native)
